

Variety Variation Versatility

From aesthetics to convenience, special to specific usage, Orix Propack Pvt. Ltd. can be the packager of choice for the Pharmaceutical, Oral Care, FMCG, Cosmetics, Chemical and Healthcare industries.

About Us

Orix Propack Pvt. Ltd. delivers customized Lamitubes or Laminate Tubes to the Pharmaceutical, Oral Care, FMCG, Cosmetics, and Healthcare industries. We are a specialist manufacturer of both ABL (Aluminium Barrier) and PBL (Plastic Barrier) tubing solutions.

Starting operations in 2012 under the name of “Shrinath Multipack,” we have good presence in Gujarat with over 100 clients. To launch our pan India operations, we have changed our entity from Partnership to Private Limited and introduced a new brand by the name of “Orix” and established ourselves as “Orix Propack Private Limited.” The Orix plant is based in Morbi, Rajkot (Gujarat), which is regarded as the Ceramics Capital of India. Our main thrust is on achieving continuous customer satisfaction based on the manufacture and supply of top quality Lamitubes and timely product improvisations.

Our latest investment is in a state of the art **KOMBIS TMM8005** from Bulgaria, which is the latest tube-manufacturing technology across all dia, starting from 19 to 38 Dias. We will also add high-speed printing lines to our existing infrastructure that will give us an edge in the market over our nearest competition.

Going forward, Orix is committed to meeting the challenge of changing customer demands and stiff competition. We believe in building long-term relationships with our customers based on quick adoption of newest technology and a focus on quality, consistency, reliability, flexibility and collaboration. Over the years, Orix aims to achieve incredible business growth to obtain a dominant position in the market.

Packed to Perfection

Our innovation-driven approach to product development taps into our global expertise and specialized knowledge. We analyze market trends before forecasting futuristic demands of our industry to come up with premium product offerings. We believe in staying ahead on the learning curve in our technology-driven, consumer-determined, Innovation-led market. Our strict adherence to customer specs, dimensions and control over surface quality helps us produce a very strong portfolio of products.

PACKED IN STYLE

Our laminated ABL, PBL Laminate Tubes enjoy a competitive edge in the market. We are known for our safe, attractive, consumer and environment friendly, highly distinguished and well-differentiated product offering. Our tubes squeeze with ease and bounce back to retain their original shape that helps in the positioning of your premium brand.

PACKED BY INNOVATION

At OrixPropack, we are aware that continuous innovation is the key to supplying a state-of-the-art, sustainable product line. Our huge R&D spend gives us the confidence and wherewithal to be a trendsetter for the packaging industry. Our innovative product portfolio is ever-changing and the first to respond to changing industry needs and user demands.

PACKED TO QUALITY

Quality runs in the DNA of OrixPropack. It's there in our operations and processes leading to complete customer satisfaction outcomes. Our rigorous quality approach is geared to exceed customer expectations and generate an emotional surplus in them.

PACKED IN PARTNERSHIP

From your initial idea to the final delivery; from early development to the entire product lifecycle, you will be supported by a company with over five years of experience in the industry. By pooling all these years of market and product knowledge into your service, we will deliver the most persuasive packaging for your product.

We Make It Simple

We make Multi-Layered Laminate Tubes that finds wide application in a slew of industries. The look and functionality of our plastic laminate tubes is to be seen to be believed. We boast of world-class machinery that fabricates minimal seams, thereby giving you maximum space for graphics, labelling and branding on the tubes. We ensure there is no transfer of air, moisture and light – so your product remain fresh and well-preserved inside our tubes.

COSMETIC TUBE

One of the areas where packaging is essential, not only for marketing but also for maintaining the integrity of the product is the cosmetics industry. Our cosmetic product line is manufactured under the expert guidance of skilled industry veterans from high grade raw material on technically-advanced machines, while adhering to the highest industry norms. The final product line will have the perfect finish, heat resistance and a strong grip of the cap. We make tubes in a whole range of sizes and shapes as per your specs.

PHARMA TUBE

Our tubes for pharmaceutical compositions are laminated in Multilayers for best protection. We also have them tested on stringent quality parameters by skilled quality controllers to ensure a flawless finish and total hygiene, safety and long shelf life. Additionally, we offer a wide choice in conical, stand-up and flip-top caps.

ORAL CARE TUBE

These tubes are manufactured from high grade raw material using the latest technology. Our tubes are very highly rated in the market for their attractiveness, durability and compact size. We command a full tube range in different sizes, shapes and other specifications as per the industry requirements.

Markets We Serve

We have separate sections for Printing, Capping and Quality Control. Our industry is constantly evolving and so do we. Fortunately, we thrive on change. Over the years, our technical knowledge and expertise has begun to reflect in the innovative solutions we have developed for clients across the globe, and set new benchmarks for the packaging industry. We work in collaboration with our clients to develop products for futuristic applications.

FMCG

The tubes we manufacture help our customers create, market and sustain their brand identities. We make tubes for Herbal Toothpaste, Ayurvedic Toothpaste and White Toothpaste.

COSMETICS (Skin, Oral and Hair Care)

Cosmetic products are as much about what's inside, as what's outside. Representing an impulse-purchase category, the appeal of your products can be greatly enhanced by our packing. We excel in producing plastic tubes at our state-of-the-art plant, where we manufacture a range of cosmetics plastic tubes, herbal cosmetics tubes and hair colour tubes.

PHARMACEUTICALS

The pharmaceutical is totally driven by stringent safety criteria. Our ultra-modern plant and machinery, along with our highly-trained staff has the capability to live up to these high standards.

HEALTHCARE INDUSTRY

Health and wellness continues to be a top global concern. We collaborate with you to propose the latest packaging designs, technologies and trends for the healthcare industry to make your products salient and stimulating.
